In 2016, Chile participated in 220 South-South Cooperation actions, projects and programs. Nearly 6 out of 10 initiatives were implemented under the bilateral modality; one in four, via the regional form; and virtually one in five, were triangulations. Likewise, and regardless of their relative importance, Chile was involved in the highest number of Triangular Cooperation initiatives as first provider (32). Virtually 60% of the 220 initiatives in which this country participated in 2016 are accounted for when initiatives executed as SSC Bilateral provider are added to the above.

Through SSC, Chile exchanged with other countries (including Argentina and Mexico) its acknowledged capacities in Other services and social policies (27 projects, equal to 25% of the cooperation provided) and Health, as well as Strengthening of public policies and institutions and Agriculture. Overall, Chilean cooperation tended to align with SDG 8 (Decent Work and Economic Growth), SDG 2 (Zero Hunger) and SDG 16 (Peace, Justice and Strong Institutions).
